HydroPort™ 2

by HydroHoist BOAT LIFTS

Rigid mount hardware

Universal mount hardware

Patents Pending

HydroPortz's exclusive bow bumper slows your craft's forward motion and provides a soft rest for the keel.

The replaceable keel guide and bow roller helps center your craft. In-line rollers make launching your craft easy.

Molded-in tie-down loops at the bow and both sides of the stern secure your craft when docked.

A connecting link locks multiple units together.

Universal moorings for floating or fixed docks, piers or sea walls.

In-line rollers make launching your craft easy.

nd ready to go.

PROTECT YOUR CRAFT AND ENJOY FAST, CONVENIENT ACCESS TO THE WATER with the HydroPort$_2$ PWC Docking Platform. Its exclusive bow bumper slows your craft's forward motion and provides a soft rest for the keel. A replaceable keel guide and bow roller help center your craft, and in-line rollers make launching easy and convenient.

The HydroPort$_2$ can be front- or side-mounted on floating or fixed docks. Molded-in tie-down loops are provided at the bow and at both sides of the stern to secure your craft. An optional connecting link locks multiple units together.
